Property Description

Amazing opportunity to own and develop your own piece of heaven on earth in Carate on the unique and stunning OSA Peninsula. The property being offered includes 141 hectares (348 acres) of pristine forests – fully developable - including 1.95 kilometers of undisturbed beach frontage on the Pacific Ocean. Contained within the property offered are numerous buildable ridgelines with ocean views and multiple flat sections near the beach looking over Playa Carate. An additional feature of this location is the paved airstrip, maintained by the Costa Rican aviation agency, right at the entrance to the Carate parcel and the airstrip is included in the concessions that go with the offering. Travel to this part of the Osa Peninsula is by all-weather road from the main commercial center of Puerto Jimenez and takes approximately an hour and a half. The Airstrip certainly adds to the ease of access to this beautiful paradise as flights can be arranged from not only the main airport in Puerto Jimenez, but also from the capital city of San Jose.
