- Acreage
- Investment Opportunities
- Mountain Properties
- Water Views

Property Description

There are few other places in the world quite like this world-class development property located in Southern Costa Rica. Every property is unique, but there are some that have extraordinary features. Its elevated placement at the southern opening of Golfito Bay provides a front-row view of all of the activity in the bay. Watch Humpback whales breaching and dolphin swimming in the wakes of fishing boats and cruise ships entering and leaving the bay. Three distinct types of views are available throughout the property, each are spectacular in their own special way: -Panoramic vistas to the northwest that extend over the bay and out to the opening of the Golfo Dulce and Cabo-Matapalo point. -Whitewater ocean views overlooking the Coto river and stretches down the southern coast to the world famous Pavones surf break. -A view to the east towards rainforest covered mountainsides, the historic bayfront town of Golfito and the newly constructed Marina. The 227 acre (92 hectares) property is ideal for various development concepts from villas, large estate homes, a luxury resort, a boutique hotel with equestrian facilities, or a hospitality business catering to recreational fishermen.
