Property Description

Wonderful 16,9 acres property for sale in the rainforest with spectacular ocean and mountain views and the Manuel Antonio National Park an eco-development, located Between Quepos and Dominical, South Pacific coast of Costa Rica. Besides a beautiful creek and waterfall... the project is a private biological reserve surrounded by rainforest with wonderful views and where you can enjoy fresh air and also very close to a variety of entertainment options just minutes away.. This project aims to meet the needs of its residents while preserving the harmony of nature. Access directly off the Costanera highway and about 1/2 mile of unpaved private road on property, electricity and water at the property..
