Exceptionally well suited for five or six luxury estate parcels or a family estate compound, in either case the vast expanse of nature creates an unequalled ambiance, without the challenge of access and services normally associated with this type private preserve property. Substantial infrastructure has been established for internal road access and water, a 2 bedroom home exists with abundance of garage and storage space, landscaped gardens and terraces to enjoy the abundant nature. There is also a caretaker's house of typical local nature. Electricity is installed to serve these two residences.
