- Mountain View
- Beach Properties
- Close To Transport
- New Projects

Property Description

Imagine living in a place where your view is of tropical rainforest and the Pacific Ocean in all of its changing colors and moods. Where you wake up to the sound of a dozen green parrots loudly planning their day and howler monkeys connecting with their friends across the valley. Where sea breezes brush your skin and elang-elang trees scent the air. Where you will keep your camera at your side because you never know what new scene or animal or bird or fascinating insect you will see. This property, just a quick 6 minute drive up from the coastal highway through lush vegetation on a well maintained gravel road, is ready for your custom home, pool and deck. Water and electricity are readily available. Building a custom home is a big project anywhere in the world, but we can walk you through the process and connect you to architects, builders and other professionals we trust. Start with a tropics-appropriate design that's light and airy, take it step by step, and you will end up with a home like no other, a signature trail head for your adventures and experiences in Costa Rica.
