- Water Views
- Acreage
- Mountain Properties
- Equestrian
- Mountain View

Property Description

Priced Just Dropped from \$179,000 to \$119,000!! 5.7 hectares, or about 14.2 acres of gorgeous mountain view property, just minutes from the Southern Pacific Coast. The Valley of the Horses development is located on the paved road leading from Dominical Beach to San Isidro, in the community of Plantanillo. It is only a short distance from the property to the paved road. Once on the paved road, Dominical is only 15 minutes away and San Isidro, the area's largest city, only about half an hour's drive. The property is at an elevation that is high enough to be cooler than the beach, but close enough to make the drive down to Dominical at any moment to catch great waves. The property is also very close to the Nauyaca Waterfall, one of the most popular to visit in the area. And it features views of the Diamante Fall, which at around 200 meters, is the highest in the country. The property is predominantly flat and offers plenty of usable space for building a large estate home, or several smaller villas.
