## Property Description

Nestled in the Talamanca mountains just south of San Isidro de El General, in the pueblo of San Francisco de Cajon, is a property so elegant and inspirational in every intricate detail, yet surprisingly durable and comforting, that you will never want to leave. Rancho Villa Verde is versatile. Its 3,069 square meters of living space (over 33,000 square feet) can be used as a luxury family compound, or a small and very luxurious boutique hotel. The property is located at over 800 meters (2,625 feet) and boasts a year-round temperate climate. The home was built with the finest of local and imported materials... Floors are Travertine (tolú chocolate) and Coralina (golden) from the Dominican Republic. Carolina Onyx from Mexico was used in the facades. The pool features Tikal marble from Guatemala. Interior construction features artisan ceilings throughout with exotic tropical woods such as Teca, Ron Ron, Cenisaro, Laurel del Atlantic, Guayacan, Surá, and Bamboo.
