THE PERFECT INVESTMENT The topography is irregular, starting from the ordinary high tide, it rises, and forms small hills overlooking the sea, creating natural terraces. This property is perfect to build your new house, villas, or even a fabulous hotel and if you are an adrenaline lover this paradise will allow you to do zip line, cable car, and walkways through the trees. Enjoy a million-dollar view overlooking the panoramic view of the Golfo Dulce. ABUNDANT WATER AND GREEN LIFE In the middle of the green forest and the jungle, you will be able to hear the sweet sound of the three important springs that the property has throughout the year, these springs join to create two streams with crystalline waters that descend and flow into the sea.
