Property Description

Located right in the path of projected development & growth in southern Costa Rica, this Palmar Sur estate property offers unique amenities that some select buyers are looking for and that simply are not commonly available on the market. Perhaps the most notable is the private access to the Palmar Sur regional airport. So without the hassle of maintenance, the owners of this property have private access to the regional airport in Palmar Sur, sufficient for small jets and most private planes. The land size is a skoshe under 6 hectares (14+ acres) and nearly every inch of it is usable. This would be a perfect site for a hotel or a small community of residential homes with room for commercial. There are 3 houses on the property, each with 3 bedrooms and 2 baths. The seller lives in one and rents out the other 2 to local professionals. There is a large work shop where numerous vehicles and equipment can be stored, a hangar, and an open air covered area for more planes, tractors, you name it.
