Property Description

Adventure, nature chasers dream hotel, that is totally secluded and situated between a navigable waterway and the beach. You travel through the pristine Tortuguero river delta and then in to a narrow estuary nearly covered in jungle canopy that the access is boat only to reach the hotel! The cabins are well built, and simple, but very comfortable with a rustic touch. There is a large new construction restaurant adjacent to the pool that serves as the dining area, and multiple ranchos within the property for lounging and watching nature. Quite an amazing setup, which I am sure was no easy task due to the location and access. Property consists 55 cabins ON THE BEACH where giant sea turtles nest and hatch their youngsters on the Caribbean. 154 acre campus style destination resort encompassing miles of jungle trails, a meandering private canal and a half mile of isolated beach right on the Caribbean.
