- Water Views

Property Description

"Canacilla" super exclusive peninsula located on Isla Boca Brava, bordering the Chiriqui Marine National Park is the ultimate site for boutique Eco-Resort hotel. Local fisherman call the bay on the inside of the peninsula the Hidden Port. Which is totally protected from wind and swell from any direction, and ideal for boutique marina, for dock and dine access to a new future resort project! The rocky rimmed Peninsula runs out into the Pacific at the length of a soccer field, and at an elevation of 140 feet above sea level with a tranquil protected bay and two beaches on one side, and another tranquil coconut palm lined beach with a fresh water stream with waterfalls and pools emptying out on the beach.. The peninsula slopes down to an isthmus which is a stones throw to the sand on either side and then rises to a high bluff overlooking the bay (Puerto Escondido) and the rocky shoreline and out to the neighboring Boutique Eco-Resort Calamia.
